Wildlife & Business

Wildlife / Zoo Vet & Curator
Shelter Vet / Medical Director
ABC Program In-charge
Animal Rehabilitation Specialist
Pet Grooming Entrepreneur
Equine Vet / Stud Farm Manager

About Founder

Late Shri Poonam Chand Ji Kalal
Founder, M.B. Veterinary College

Late Shri Poonam Chand ji Kalal, the founder of M.B. Health & Hygiene Nursing Shikshan Sansthan, Dungarpur, accepted the challenge and decided to open a veterinary college in the Dungarpur district of Rajasthan, keeping in view the need of the state in general and of that area in particular. The members of society approached the Government of Rajasthan for seeking its permission to open the proposed veterinary college.

The college is affiliated with the Rajasthan University of Veterinary & Animal Sciences (RAJUVAS), Bikaner; and recognized by Veterinary Council of India, Ministry of Agriculture and Govt. of India. The college follows course-curriculum as per Minimum Standard of Veterinary Education-2016 prescribed by the Veterinary Council of India (VCI), New Delhi, with emphasis on disease of bovines including sheep & goats, camel, equines, poultry and companion animals to meet specific requirements of the state.

Ashish Anand

Director, MBVC

Thank you for your interest in M.B. Veterinary College, Dungarpur, Rajasthan. At MBVC, we are committed to providing quality veterinary education through a strong foundation of integrity, innovation, excellence, teamwork, leadership, and professionalism. Our institution focuses on academic excellence, ethical values, practical learning, and professional growth to prepare future veterinarians for meaningful careers in animal healthcare and veterinary science.

The administration, faculty, and staff at MBVC work together to create a supportive learning environment centered on compassion, accountability, and respect. We take pride in nurturing skilled professionals dedicated to animal welfare and community service. We warmly welcome you to explore our modern campus and become part of an institution committed to shaping future veterinary leaders.

It is my privilege to welcome aspiring students to the noble profession of veterinary science at M.B. Veterinary College. Supported by experienced faculty and modern academic facilities, students receive quality education, practical exposure, disease diagnostics, and clinical training through our Veterinary Clinical Complex. We take pride in nurturing future veterinary professionals through a strong foundation of knowledge, ethics, and hands-on learning.

Our curriculum is designed in accordance with the standards prescribed by the Veterinary Council of India (VCI), New Delhi, ensuring a comprehensive education focused on modern veterinary science and skilled practices. With advanced educational facilities, student amenities, and a supportive learning environment, M.B. Veterinary College is committed to providing outstanding opportunities for academic and professional growth. We warmly welcome you to visit our campus and become part of this journey in veterinary excellence.

Secretary

Yashwant Anand

Financial Secretary

M.B. Veterinary College, a constituent institute of M.B. Health & Hygiene Nursing Shikshan Sansthan, has emerged as a centre of excellence in veterinary education and training. The college is Recognised by the Government of Rajasthan and Approved by the Veterinary Council of India (VCI), New Delhi, offering quality education aligned with professional veterinary standards.

Equipped with modern infrastructure including lecture halls, well-furnished laboratories, library facilities, and clinical practice units, the college provides a dynamic learning environment amidst a serene natural setting. With the dedicated efforts of management, faculty, and students, M.B. Veterinary College continues to foster academic excellence, professional growth, and responsible future veterinary professionals.

A Message from the Dean

Prof. Dr. V. K. Sharma
Dean

About Dean

Prof (Dr.) Vinod Kumar Sharma is the Dean of M.B. Veterinary College and has been serving the institution since 11 November 2021. An accomplished veterinary academician and researcher, he earned his Bachelor and Master's degree from GB Pant University of Agriculture and Technology, Pantnagar, and completed his Ph.D. in Veterinary Gynaecology and Obstetrics with distinction from Haryana Agricultural University Hisar. Throughout his distinguished career spanning more than three decades, he has served in teaching, research, clinical practice, and academic administration at reputed veterinary University in Gujarat.

Dr. Sharma has guided numerous postgraduate and doctoral students, published research contribution extensively in national and international journals, authored books and laboratory manuals, and organized national seminars, state level conference. He received several prestigious awards/ honors for his contributions to veterinary science. His expertise in veterinary clinical services, research, and academic leadership continues to strengthen the growth and excellence of M.B. Veterinary College.

It is my privilege to welcome you to M.B. Veterinary College, one of the prestigious colleges affiliated with RAJUVAS. Our institution is dedicated to excellence in Veterinary Medicine and Animal Husbandry, with a commitment to developing compassionate, competent, and ethically responsible veterinary professionals.

M.B. Veterinary College offers state-of-the-art infrastructure, modern classrooms, well-equipped laboratories, and a comprehensive Clinical Complex equipped with advanced diagnostic facilities including sonography, radiology, haematology and biochemical

Preparing skilled veterinarians for a healthier future for animals and society.

analysers, physiotherapy units, and specialized facilities across various departments. The college also maintains livestock farms that provide valuable hands-on training and practical exposure.

Our experienced faculty, drawn from reputed institutions across India, foster a vibrant academic environment that combines strong theoretical foundations with practical learning. Special emphasis is placed on clinical and field training to develop essential professional skills.

To enhance students' exposure and career opportunities, the college provides intern-ship and training opportunities at various centres of national and international repute. Through these experiences, students gain valuable practical knowledge and confidence in veterinary healthcare and animal management.

We are confident that the education and training imparted at M.B. Veterinary College will prepare our students to excel as skilled veterinarians and meaningful contributors to animal health, welfare, and society.

The College at a Glance

Rajasthan: A Land of Rich Livestock Heritage

Rajasthan is renowned for its rich animal wealth, both in terms of quality and quantity. The livestock sector plays a vital role in the state's economy and contributes significantly to the livelihood of its people. More than 15% of the state's revenue is generated from this sector, making it one of the key drivers of socio-economic development. Rural communities, particularly the economically weaker sections, depend heavily on livestock for their sustenance and financial well-being.

Strengthening Rural Livelihoods Through Livestock Development

Recognizing the importance of the livestock sector, both the state and central governments have implemented several developmental programmes to progressively improve the quality of animals, their production, and reproductive efficiency. These initiatives are aimed at empowering rural populations and promoting self-reliance through sustainable livestock development.

Establishment of the College

In response to this growing need, M.B. Health & Hygiene Nursing Shikshan Sansthan, Dungarpur, accepted the challenge of establishing a veterinary college in the Dungarpur district of Rajasthan, keeping in view the educational and livestock requirements of the state in general and the region in particular. The society approached the Government of Rajasthan to seek permission for establishing the proposed institution.

Need for Veterinary Education & Skilled Professionals

To cater to the growing demands of the livestock sector, there is a continuous requirement for competent veterinary professionals equipped with modern technologies and scientific expertise. However, due to severe resource constraints, the state government has found it challenging to establish additional veterinary colleges to meet the increasing manpower requirements. As a result, an initiative was undertaken to encourage private participation in veterinary education, making compliance with the regulations of the Veterinary Council of India (VCI) mandatory for imparting veterinary education in the state.

Academic Affiliation & Recognition

The college is affiliated with the Rajasthan University of Veterinary & Animal Sciences and recognized by the Veterinary Council of India under the Ministry of Agriculture, Government of India. The institution follows the curriculum prescribed under the Minimum Standards of Veterinary Education–2016, ensuring high standards of veterinary education aligned with national guidelines.

“

The livestock sector plays a vital role in the economy and livelihood of rural communities, making quality veterinary education an essential need of the nation.

Comprehensive Veterinary Education

The college places special emphasis on diseases and healthcare management of bovines, sheep, goats, camels, equines, poultry, and companion animals to meet the specific livestock requirements of Rajasthan. The curriculum integrates academic knowledge with practical exposure to prepare students for the evolving demands of veterinary science and animal healthcare.

Modern Infrastructure & Facilities

The college campus is equipped with modern infrastructure for teaching, research, and extension education. Clinical, para-clinical, and production departments are designed with advanced facilities to provide quality education, practical learning, and hands-on training in veterinary sciences.

Our Vision

- ✧ To become a center of excellence in veterinary education, research, animal healthcare, and rural livestock development by producing skilled, compassionate, and socially responsible veterinary professionals.

Our Mission

- ✧ To provide high-quality veterinary education with practical exposure
- ✧ To develop competent veterinary doctors with ethical values
- ✧ To promote scientific livestock management and animal welfare
- ✧ To encourage research, innovation, and rural veterinary services
